

SILVER TO THE RESCUE.

When the Resumption Act was passed and a day set for it to take effect it was well known that there was not gold enough to redeem the outstanding green backs, or even the National Bank notes. The Government had the right to use silver or gold at its option. Very few wanted either gold or silver when it came known that the Government could pay and would pay at its pleasure in silver or gold. While values went on decreasing, and wrecks of business men were scattered all along the commercial highway, still the credit of the Government was maintained because it had the coin to pay its debts. Say what we may, silver played a very important part in the resumption of specie payment after the war. Commenting on the situation at present, the Cleveland, Ohio, Plain Dealer says:

"To-day one word from the Government declaring that it would use silver equally with gold and at its own option would place the silver dollar and the gold dollar side by side and in equal step. It is the discrimination against silver by the Government against itself, against our homelands and in favor of foreign trade and speculators in gold that causes the hoarding of gold and its shipment abroad. One bold, manly word from Secretary Foster saying he would exercise his reserved and undoubted right to pay either silver or gold would settle the whole question. Why in the name of common sense and common justice has the debtor the right to say in which coin his debt shall be paid, when it is stated on the face of the bill itself that it is payable in coin? Does that give the debtor the right to demand gold?"

"Both platforms of the great political parties pledged themselves to make each dollar as good as every other dollar. Can this be done by discriminating against silver and not being willing to demand that it shall be used equally with gold while it bears the stamp of the Government? Is it sound discretion to discriminate against one dollar—the white dollar—and not demand that it shall be accepted by the creditor just the same as the yellow dollar? The power lies entirely with the Government."

"Every treasury note, and, we believe, every bond of the United States is payable in coin, and it is optional with the Government which coin it shall pay out. What silver we have is legal tender, why not use it as such? We say, stop making it merchandise, give it full coinage, equally with gold at the discretion of the Government, as the law permits."

A NEW WATER BILL.

The joint committee on irrigation of the Senate and Assembly has introduced a substitute for the LeGrave Irrigation bill. It is said to be less objectionable to ranchers than the original bill, because it entails less expense on the public. Nearly all agree that legislation on the water question is necessary and possibly the substitute bill may be entirely satisfactory to those who objected to the passage of the original bill. As there is said to be a strong probability of this bill becoming a law the full text of it is printed in the JOURNAL.

The law partner of Secretary Noble, of the Department of the Interior has drawn down a fee of \$753,000 for settling a land deal with the Chukawa Indians. The partner's knowledge of details was due, it is inferred, to his intimate connection with the Interior Department. The President delayed setting the Chukawa claim on the ground that he objected to having the Indians fleeced by attorneys, but his objections vanished when the partner of Secretary Noble became interested.

It is a singular fact that the New York World and the New York Herald recently published on the same identical editorial articles clamoring for the repeal of the Bullion Purchase Act. Like the framers of the silver plank in the Republican and Democratic National platforms, both were inspired by Wall Street. These are the papers Senator Hill held up to ridicule in his silver speech in the Senate.

BANKER SELIGMAN, of New York, testified that four banks in that city received \$400,000 each of the Panama Canal fund, to create a favorable impression in Washington. The Denver News says it would be interesting just now if it could be known how much it is costing "to create a favorable impression" for John Sherman's \$100,000,000 canal bond scheme now pending in the Senate.

THE National Democratic Committee has sent out a confidential circular to the State Democratic Committees asking them to make inquiry and report how the newly elected Democratic Congressmen will vote on a bill to repeal the Bullion Purchase Act. It will probably depend upon the attitude of these Congressmen on the silver question whether an extra session will be convened.

HARTER of Ohio has introduced a bill for the free coinage of gold and silver at the present ratio and on the same terms as existed prior to 1873. It provides, however, that all coins minted on private account shall not be a legal tender. Congress should pass the goldbugs' bill, with the proviso stricken out.

TELEGRAPHIC NEWS

Matters of Interest From Home and Abroad.

Vice President Morton Honored.

WASHINGTON, Feb. 27.—Vice President Morton was honored to-night as none of his predecessors have been. The entire Senate, without distinction of party, united in tendering a complimentary dinner and a bearing testimony to the admirable manner in which he presided over the deliberations of the upper chamber of Congress for the past four years.

Senator Manderson presided and after addresses by Senators Hale, Cookrell, Vines and others the Vice President responded. He said in part: "I brought to the position very little experience and but limited knowledge of parliamentary law, for the times of my life have been cast in places where such knowledge was not required. I felt the force of my short comings, but relied with trusting confidence upon the gentle forbearance that ever characterized the Senate of the United States. Experience has shown me that my trust had abundant foundation. That I have served the Senate acceptably (and I am faint to believe so) from the earnest recognition you have given me here and elsewhere) has been because of the generous and unselfish support received by me from all the members of the body, without distinction of party. I would be lacking in common sensibility did I not feel overwhelmed with gratitude and express in the strongest words that my tongue (too feeble to express the full emotions of my heart) is capable of forming. Thanks sincere and hearty; thanks with which I acknowledge the compliment so generously paid me. The distinguished gentleman who will in a few days succeed me has done for me a great deal and at the end of his service will have like occasion for satisfaction, that the support and countenance ever accorded to its presiding officer by the Senate will be his, rendering the performance of a grave and important duty a pleasant and attractive function."

The Last Chapter.

SAN FRANCISCO, Feb. 27.—Ollie Hutchings, one of the principals in the Emma Dick forgery, who has been in custody many months, was to-day discharged and the last chapter in the famous case is ended. The cause of the dismissal was that she helped the prosecution to complete the case against the other conspirators. Emma Dick owned valuable property in San Francisco. Ollie Hutchings was designated to impersonate her before a notary in order to raise money on a mortgage to Capital One. The plan succeeded and Ollie, one, Piche and James E. Wells, got \$13,000 from Crave. Miss Hutchings went to Oregon, and was leading a respectable life when the forgery was discovered. She was arrested, brought back, turned State's evidence and Wells got five years in prison. Piche took poison in jail and died.

Crave has a suit still pending against the bondsmen of the notary for the money lost.

Are the Sureties Good?

SAN FRANCISCO, Feb. 27.—Chief Justice Beatty in the Supreme Court to-day held an investigation in chambers into the bond of \$20,000,000 which had been filed in the Hale-Norcross case. Legally expressed the affair was a joint action of sureties on a bond to stop execution of the estate of Hale and Norcross. The principal sureties are Miss Ella and Miss Alice Hobart, one of whom is 18 years old and the other 20. The other sureties are William Gings, \$800,000, and C. D. Lane, \$800,000. The principal argument was whether the Misses Hobart are actually possessed of means, they being hetterances of an estate as yet unsettled and against which unknown claims may lie. In the matter of the other sureties Judge Beatty expressed himself satisfied with Lane's security and reserved judgment on the others.

Railroad Extension.

SAN BERNARDINO, Cal., Feb. 27.—A document was filed in the County Recorder's office this afternoon in the form of a trust deed from the Nevada Southern to the Metropolitan Trust Company of New York. The instrument provides for the issuance of bonds of \$15,000 per mile and of \$5,000 on the rolling stock of a road to be built from Gaffa, in this county, to Good Spring, Nevada, with a branch from Manvel to New York mining district. This is supposed to be the first move in the long expected extension of the Utah Southern into California.

One Going a Dollar a Pound.

PREROCOT, A. T., Feb. 27.—A rich strike of ore is reported from Agua Fria, about 35 miles from Prerocot. The location is near the famous Big Bag District which has been producing rich ore for years or more. Ore from the new fields is reported at \$2,000 per ton, or \$1 per pound.

A Failure.

SAN FRANCISCO, Feb. 27.—The Geyser Water Company, which for the past two months has been extensively advertising mineral water, has failed for \$80,000, of which \$15,000 is for advertising. The assets consist of the plant of geysers, valued at \$30,000, and some stock on hand.

Refused to Oust Them.

SACRAMENTO, Feb. 27.—The Senate this afternoon refused by a vote of 19 to 18 to oust the Railroad Commissioners from office. A two-thirds vote was necessary to carry the resolution. The House adopted the same resolution a few days ago by the necessary majority.

Weather Forecast.

SAN FRANCISCO, Feb. 27.—The forecast for Nevada is fair weather and warmer in the western portion.

Indian Counterfeits.

PREROCOT, A. T., Feb. 27.—Apache Indian counterfeiters have been discovered in the Mogollon mountains. The coin was counterfeit silver dollars made of lead washed with silver, but so imperfect that they were easily detected.

The Smoker on Fire.

PARIS, Ky., Feb. 27.—A smoking car on the Kentucky Central caught fire when near Talbot Station while the train was running at full speed. Several passengers were painfully burned.

FLORISTON NOTES.

The Ice Crop is the Heaviest Yet Known.

FLORISTON, Cal., Feb. 26, 1893

Mrs. U. S. Simonds has returned from a prolonged visit to her folks in San Francisco.

Our boys have started a gymnasium. They have a large hall and though just started it promises to be a success.

Mrs. S. H. Simonds is expected home soon from San Francisco where she has been under medical treatment for three months.

Mason, Kidder & Co. have closed a contract with the S. P. Co. for a million and a half feet of snow-shed timbers. They will start the mill up as soon as possible.

All the ice companies along the Truckee river in California have filed their houses. There has been more ice harvested this year than ever before and at less expense.

We understand that there has been no effort made as yet towards having fish ladders put in at the Foulks' dam. Fish are trying to jump the dam but it is impossible for them to get over. This is the same obstruction that prevented the fish from ascending the river last season and of which the Truckee Republican so justly complained.

There are a couple of first-class bills working the sympathy dodge along the river. The one who shows his arm to their innocent victims presents a horrible sight. He proceeds to unbandage it stating that he was scalded and had caught cold in it. He says he has relatives in Carson and is endeavoring to reach that destination. He is working what is called the "jigger." He puts a little fly blister on his arm at night and the next morning has a fine looking "jigger." When the water is let out and the skin torn off it is difficult matter to tell it from a genuine scald. He claims that it does not hurt much after the first night and that he can use his arm nearly as well as if it was not on it. After striking a town he puts his arm in a sling, takes a little grease from a boxcar and daubs it under his eyes to produce a pale and haggard look and is then ready for business. This fellow has another on his leg which he sometimes displays. He also tells different stories as to the cause of it, one of which is that it is produced by porcolia. Many have been victimized by this fraud.

Grand Jurors

Judge A. E. Cheney and Commissioner Alt yesterday selected the following named gentlemen to act as Grand Jurors for this year.

Seymour Bryant, Jno Sonderaad, H M Frost, H H Beck, B F Sheldon, Dan Huffaker, Geo E Beckham, Larry Derby, E W Taylor, G S Taylor, W D O'Connor, J N Evans, J J Quinn, B F Bobo, S J Hodgkinson, A Abraham, J M McComick, J W Harrison, Geo W Mages, Henry Orr, R W Pardy, W J Brandon.

For Over Fifty Years

Mrs Winslow's Soothing Syrup has been used millions of mothers for their children with teething. If disturbed at night and broken of your rest by a sick child suffering and crying with pain of teething, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for children teething. It will relieve the poor little sufferer immediately. Depend upon it mothers, there is no mistake about it. Cures Diarrhoea, regulates the stomach, and bowels, cures Wind Colic, softens the bowels, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup "for children teething" is a lesson to the taste and is the prescription of one of the oldest and best female physicians and nurses in the United States. Price twenty-five cents a bottle. Sold by all druggists throughout the world. Be sure and ask for "Mrs. Winslow's Soothing Syrup."

When told that tobacco hurts them; their wives never do, because shaft red nerves, weak eyes, chronic catarrh and lost manhood, tells the story. If your husband uses tobacco, you want him to quit, put yourself about No-to-bac, the wonderful, harmless, guaranteed tobacco habit cure, by sending for our little book titled "Don't Tobacco Spit and Smoke Your Life Away;" mailed free. Drug stores generally sell No-to-bac. THE STERLING REMEDY CO., Indiana Mineral Springs, Indiana.

Kumys—The finest remedy for indigestion, and a pleasant beverage, can be obtained in pint syphon bottles at McCullough's Drug Store.

Stationery, cutlery, notions, also gentlemen's underwear and hats at A. Nelson's on Virginia street. Call and examine before purchasing elsewhere.

John Sonderland has a fine stock of French and English goods and is turning out some finely finished coats to order. His tailors are first-class workmen.

The Palace Hotel, which is well and favorably known to every old Nevada, is being conducted as usual by that veteran landlord, Al White, who spares neither pains nor purse to provide for the comfort and convenience of guests.

Deserves Attention.

If you have money to invest in Reno real estate, either in large or small amounts, the Reno Real Estate and Investment Company offers most particular inducements to you. By investing in its shares of stock you participate in its investments which are governed by its able and experienced Board of Trustees, consisting of Mr. C. T. Bender, Mr. Sol Levy, Mr. C. O. Powning, Mr. Geo. F. Turritina and Mr. A. G. Fletcher. The principle object of the company is to purchase and improve centrally located business property in the city of Reno. Everyone is of one mind as to the desirability of such investments.

The company is incorporated with a capital of \$100,000, divided into 20,000 shares of the par value of five dollars each, and from its already large list of share holders there is every reason to believe that it is destined to become one of the most flourishing companies in the State. Of its 20,000 shares there have been 12,000 sold since August 1st.

Its shares are sold upon the monthly installment plan of ten cents per share, installments to range over a period of fifty months. In this way persons of moderate means are enabled to combine and participate in investments that usually only fall to the lot of the fortunate capitalist. Mr. F. M. Lee, the Secretary of the company, will be pleased to furnish any desired information.

For Scrofula

"After suffering for about twenty-five years from scrofula sores on the legs and arms, trying various medical courses without benefit, I began to use Ayer's Sarsaparilla, and a wonderful cure was the result. Five bottles sufficed to restore me to health."—Bonifacio Lopez, 327 E. Commerce st., San Antonio, Texas.

Catarrh

"My daughter was afflicted for nearly a year with catarrh. The physicians being unable to help her, my pastor recommended Ayer's Sarsaparilla. I followed his advice. Three months of regular treatment with Ayer's Sarsaparilla and Ayer's Pills completely restored my daughter's health."—Mrs. Louise Kelle, Little Canada, Ware, Mass.

Rheumatism

"For several years, I was troubled with inflammatory rheumatism, being so bad at times as to be entirely helpless. For the last two years, whenever I felt the effects of the disease, I began to take Ayer's Sarsaparilla, and have not had a spell of lameness since."—E. T. Hansbrough, Elk Run, Va.

For all blood diseases, the best remedy is

AYER'S Sarsaparilla
Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists. Price \$1.50; six bottles, \$5.00. Cures others will cure you

NEW TO-DAY.

DR. PORTER'S ADVERTISEMENT.

A NEW DEPARTURE! IN DENTISTRY.

ABSOLUTELY Painless without Chloroform, Ether, Gas or Cocaine.

DR. PORTER

Is Sole Agent for the "Hale Method for Painless Filling" for the State of Nevada.

Dr. Porter Fills Teeth Without Pain.

Bill Nye's Testimonial.

Dr. C. E. Hale, St. Paul: Dear Sir:—Before going to your office I made suitable provisions for my family, and bringing the hands of those I love, I paid my taxes and settled my earthly affairs. I expected to suffer the tortures of the inquisition, for my molars are the most sensitive part of my anatomy, and you will remember that I inquired somewhat minutely as to where dentists bury their dead, and what ratio of the condemned really survive; but I found your new method makes it about as pleasant to have a tooth filled as to have a photograph taken, and puts a new phase on the whole business. Very truly yours, BILL NYE.

Honesty is the Best Policy.

BREVITIES
Paints at Lange & Schmitt's.
A gold scarf pin has been found. See ad.
Eleven cars of cattle were shipped from Reno yesterday.
Hyman Fredrick departed for San Francisco Sunday evening.
The Reno Guard gymnasium will again be opened this evening.
The roads about town were never in better condition for bicycling.
Crookery and glassware at San Francisco prices at Lange & Schmitt's.
T. P. Bradshaw & Co. have a bargain in residence property. See ad.
Ladies, look for the Prophylactic Compound ad. in another column.
The 19th instant was the thirtieth anniversary of the Order of Knights of Pythias.
It is understood that work on the new Riverside hotel will be commenced in April.
Plumbing, tinning and pipe work done at the lowest possible prices by Lange & Schmitt.
Ed. Wills, who was dangerously ill with inflammation of the bowels, is reported as improving.
When you feel tired, without special cause, that indicates the need of Ayer's Sarsaparilla.
Ed. Williams of Winnemucca arrived from Carson Sunday night and departed for his home yesterday.
Mr. and Mrs. C. A. LaGrave and son Clara arrived from Carson Sunday evening. Mrs. LaGrave and son continued on to San Francisco.
The fifth annual report of the Nevada Agricultural Experiment Station has just been received. Much valuable information is contained in the report.
As the name indicates, Hall's Vegetable Sicilian Hair Restorer is a restorer of the hair, including its growth, health, youthful color and beauty. It will please you.
The Foote Dramatic Company will be with us all next week. The Carson papers, where the company has been playing for a week past, speak very highly of the performances.
D. L. Sayre will move the Chloride Belt printing plant from Candelaria to Greenfield in Lyon county where he will start a weekly newspaper to be called the Mason Valley Tidings.
The "Club Sierra" is the name given the new club recently organized by Reno young men. At a meeting held Saturday evening Ralph Hussey was elected President and Frank Barnes Secretary.
S. Beemer had a hearing before Justice Linn yesterday charged with disturbing the peace of the Salvation Army Saturday night. He was found guilty by a jury and will receive his sentence at ten o'clock today.
A. B. Vogel, adjuter for the Sun Insurance Company of San Francisco, and father of Mrs. B. F. Carter, arrived from the East yesterday and will depart for Virginia City today on business connected with his company.
While Grant Rice was splitting wood last Saturday a piece of steel from the wedge in use broke off and entered one of his knees, and as a consequence Grant is around on crutches. The wound is not serious but very painful.
The lots in the burnt district, corner of Second and Virginia Streets, are being cleared off by M. D. Foley. It is understood the work of erecting a three-story brick building on the lots will be commenced immediately.
W. P. Cloberry, an impecunious resident of Eureka for the past twenty years, was found dead in his bed at the Morgan House last Friday. A short time ago he received \$975 from New Orleans, from the estate of his deceased mother, and forthwith proceeded to get drunk and his death was the result of the spree.
Resolutions of Respect.
At the regular meeting of the W. C. T. U. held February 21, 1893, the following resolutions were adopted:
Whereas, In view of the loss we have sustained by the decease of our friend and sister, Ruano Van Duzer, and by the still heavier loss sustained by those who were nearer and dearest to her; therefore be it
Resolved, That it is but a just tribute to the memory of the departed to say that in regretting her removal from our midst we mourn for one who was, in every way, worthy of our respect and regard.
Resolved, That we sincerely condole with the family of the deceased on the dispensation with which it has pleased Divine Providence to afflict them, and commend them for consolation to Him who orders all things for the best.
Resolved, That these resolutions be transmitted to the family as a testimonial of our sympathy and sorrow and of the interest felt by her associates of the W. C. T. U. and that they be copied, in full, on our minutes and printed in the DAILY NEVADA STATE JOURNAL.
Mrs. HULDA SPENCER,
Mrs. SARAH GILMAN,
Bird Society.
The Ladies' Aid Society of the M. E. Church will give a bird social at the residence of Mr. and Mrs. Dan's Wednesday evening. Supper served any time after 5 o'clock. A good program has been prepared.
No beauty ever looks her best,
Unless, with Ayer's Hair Vigor dressed,
Her hair, chief glory is consumed.

NEVADA LEGISLATURE.
Proceedings of the Sixteenth Session.

Recess till 7 o'clock.

A NEW IRRIGATION BILL
The Senate Substitute for the LaGrave Bill.
SECTION 1. There shall be a State Engineer, who shall be appointed by the Governor of the State. He shall hold office for the term of four years, or until his successor shall have been appointed and shall have qualified. No person shall be appointed to this position who has not such theoretical knowledge, and such practical experience and skill as shall fit him for the position.
SEC. 2. The State Engineer shall receive a salary of two thousand five hundred dollars (\$2,500) per annum, payable in monthly installments by the State Treasurer, upon warrants drawn by the State Controller.
SEC. 3. The State Engineer shall keep his office at the State Capital in the Capitol building.
SEC. 4. Before entering upon the duties of his office, he shall take and subscribe an oath, before some officer authorized by the laws of the State to administer oaths, to faithfully perform the duties of his office, and shall file with the Secretary of State said oath and his official bond, in the penal sum of five thousand dollars (\$5,000) with not less than two sureties, to be approved by the Governor of the State, and conditioned for the faithful discharge of the duties of his office, and for delivery to his successor, or other officer appointed by the Governor to receive the same, all money, books, and other property belonging to the State, then in his hands, or under his control, or which he may be legally chargeable as such officer.
SEC. 5. The State Engineer shall make, or cause to be made, measurements and calculations of the discharge of streams from which water may be taken for beneficial purposes, commanding such work upon those streams most need for irrigation or other beneficial purposes. He shall make measurements of the carrying capacity of ditches and canals diverting water therefrom, and an examination and approximate measurements of the lands irrigated or susceptible of irrigation, from the various ditches and canals. It shall also be his duty to make, or cause to be made, maps or plans, on a scale of not less than one inch to the mile, showing with substantial accuracy the course of said streams, the location of each ditch or canal diverting water therefrom, and the legal subdivisions of land which have been irrigated, or which are susceptible of irrigation from the ditches and canals already constructed. He shall collect facts and make surveys to determine the most suitable locations for constructing works for utilizing the waters of the State and ascertain the location of lands best suited for irrigation. He shall examine reservoir sites and shall, in his reports, embody all the facts ascertained by such surveys and examinations, including, whenever practicable, estimates of the cost of proposed irrigation works and of the improvement of reservoir sites. He shall become conversant with the water ways and the water resources of the State, and the needs of the State as to irrigation matters, and in his reports to the Governor he shall make such suggestions as to the amendment of existing laws or the enactment of new laws, as his information and experience shall suggest. He shall do any and all work for the State coming within the line of his profession, when called upon by the Governor to do so, and he shall keep in his office full and proper records of his work, observations and calculations, all of which shall be the property of the State.
SEC. 6. The State Engineer shall have power to employ assistants to aid him in his work at an expense not to exceed \$1,000 dollars per year, such assistants to be paid out of money appropriated for that purpose, in the same manner that other bills against the State are paid.
SEC. 7. When the State Engineer is called away from his office he shall be entitled to his actual traveling expenses, which shall be allowed and paid out of any money appropriated for that purpose, in the same manner that other bills against the State are allowed and paid.
SEC. 8. The State Engineer shall prepare and render to the Governor biennially, and whenever it required, full and true reports of his work, touching all the matters and offices devolving upon him by virtue of his office, which reports shall be delivered to the Governor on or before the thirty-first day of December of the year preceding the regular session of the Legislature.
SEC. 9. Within sixty days after the passage of this Act, it shall be the duty of the County Recorder in each of the counties of this State to prepare a full and complete transcript of all the claims to appropriations of water now on record or on file in their respective offices, and to transmit the same without delay to the State Engineer, by express or registered mail, for which services he shall be paid 20 cents per folio for preparing said abstract; provided, that the County Recorder shall, in place of said abstract, transmit such original records of claims of water as are now recorded in books kept specially for that purpose.
SEC. 10. Immediately upon receipt of said transcripts and original records, it shall be the duty of the State Engineer to file them in his office, and to classify and arrange said claims by placing all the claims of water of one stream and its tributaries together.
SEC. 11. Every person, association or corporation hereafter intending to appropriate any of the waters of the State of Nevada shall, before commencing the construction, enlargement or extension of any distribution works, or performing any work in connection with said appropriation, make application to the State Engineer for a permit to make such appropriation. Said application shall set forth the name and postoffice address of applicant, the source from which said appropriation shall be made, the amount thereof, as near as may be, the location and character of any proposed works in connection therewith, and the time required for their completion, said time to embrace the period required for the construction of ditches thereon, and

ABSOLUTELY PURE
the time at which the application of water for beneficial purposes shall be made, which said time shall be limited to that required for the completion of work when irrigated thereby, and any additional facts which may be required by the State Engineer. On receipt of this application, which shall be of a form prescribed by the State Engineer, and to be furnished by him without cost to the applicant, it shall be the duty of the State Engineer to make a record of the receipt of said application, and to cause the same to be recorded in his office, and to make a careful examination of said application to ascertain whether it sets forth all the facts necessary to enable him to determine the nature and amount of the proposed appropriation. If upon examination the application shall be found in any way to be defective, it shall be the duty of the State Engineer to return the same to the applicant for correction. If it shall appear that there is an appropriation of water in the source of supply named in the application, and if such appropriation is not otherwise detrimental to the public welfare, the State Engineer shall approve the same by endorsement thereon, and shall make a record of such endorsement in some proper manner in his office, and return the same so endorsed to the applicant, who shall, on receipt thereof, be authorized to proceed with work, and to take such measures as may be necessary to perfect such appropriation. If there is no unappropriated water in the source of supply, or if in the judgment of the State Engineer, such appropriation is detrimental to public interests, he shall refuse such appropriation, and the party making such application shall not prosecute such work so long as such refusal shall be in force; provided, however, that the State Engineer may, upon examination of such application, endorse it approved for a less amount of water than the amount stated in the application, and for a less period of time for perfecting the proposed appropriation, than that named in the application; provided further, that an applicant feeling himself aggrieved by any endorsement made by the State Engineer upon his application, may take an appeal therefrom to the District Court of the county in which said application was made, and the proposed source of supply at which the diversion of the proposed appropriation is to be made. Such appeal shall be perfected when the applicant shall have filed in the office of the Clerk of such District Court a copy of the order appealed from, certified by the State Engineer as a true copy, together with a petition to such Court setting forth appellant's reason for appeal. Such appeal shall be heard and determined upon such competent proofs as shall be adduced by applicant, and such like proofs as shall be adduced by the State Engineer, or some person duly authorized in his behalf.
SEC. 12. For recording each application provided for in section eleven of this Act, the State Engineer shall be entitled to a fee of \$1, and for each certificate required from him, as in said section eleven provided, he shall be entitled to a fee of fifty cents, said fees to be deposited with the State Treasurer to the credit of a fund for the office expenses of said State Engineer.
SEC. 13. Upon the approval and allowance of an application the applicant shall send to the State Engineer's office, within six months thereafter, a map or plat, upon a scale of not less than two inches to the mile, showing the location and amount of the distributing works, the source from which the appropriation is taken and the legal subdivisions of the land upon which the water to be appropriated is to be applied, which said map or plat shall be filed and preserved in said office.
SEC. 14. Upon it being made to appear to the satisfaction of the State Engineer that any appropriation made in pursuance of the application in this Act provided for has been perfected in accordance with such application, and the endorsement thereon by the State Engineer, it shall be his duty to send to the County Recorder of the county in which such appropriation shall have been made, a certificate setting forth the name and postoffice address of the appropriator, the purpose for which said appropriation is made, the place where same is to be used and if for irrigation a description of the land to be irrigated by legal subdivisions, also the date of the appropriation, which date shall be the date of filing the original application in the State Engineer's office. Said certificate shall be recorded in the office of the County Recorder, in a book specially prepared and kept for that purpose, and at the expense of the party in whose favor it is issued.
SEC. 15. A cubic foot of water per second of time shall be the legal standard for the measurement of water in this State.
SEC. 16. Any person, association, or corporation desiring to construct any dam for the purpose of storing, appropriating or diverting any of the waters of this State, where the same is to be more than five feet in height, shall submit duplicate plans and specifications of the proposed work to the State Engineer, who shall, as speedily as possible, and within sixty days, examine such plans and specifications, and if he approve them he shall affix his approval thereto and return one copy thereof with his approval, to the party or parties proposing to construct the works. If the State Engineer shall disapprove of such plans or specifications, he shall return the same with his written objections thereto, and suggestions of changes to the party or parties filing the same. In case of works of great importance, especially when life or property would be endangered by the failure of great works, the State Engineer may require excavations to be made to determine the character of the foundation, and require a statement of the facts in the case to be filed in his office before approving of such plans or specifications, or he may, if he deems the public interest demands, visit the location of such proposed works before approval of said plans or specifications; and no rights of any kind under this Act shall be obtained, when the proposed works, as in this section provided, have not been approved by the State Engineer.
SEC. 17. Any person, association or corporation who shall store any of the surplus waters of any of the streams of this State in any reservoir, shall have the right to turn such stored water back into said stream for the purpose of conveying the same to the place where it is designed to be used, and to divert such water, less a proper allowance for losses by evaporation and seepage, at any point on said stream; provided, that in making such diversion no damage shall be done to the property of others; and provided, further, that at no time shall such an amount of such stored water be turned into such stream as will raise it above the ordinary high water mark.
SEC. 18. All blank form required to be furnished by the State Engineer, as provided in this Act, shall be prepared and printed by the State Printing office at the expense of the State.

EDITOR JOURNAL:—We desire, through the medium of your paper, to express our appreciation of the spirit prompting those who felt it their duty to aid us by getting up an entertainment with the purpose of helping pay the physicians for their attendance on our son, who was so severely hurt on the public school grounds last October; also to thank those assisting in the literary portion of the entertainment. We wish also to say in this connection that we feel very grateful to the physicians for the care and skill displayed by them in the treatment of our son's injury, and feel that care alone is due the fact that our boy will not be a cripple for life. Considering the attendance given and the result obtained, we say the amount charged by the physicians was not, as some have said, exorbitant, but upon the other hand very reasonable, and while we are not, in any sense, objects of charity, yet we are free to say the assistance given us through the entertainment, materially lessened what would otherwise have been a heavy burden.
Yours truly,
MR. AND MRS. G. O. McNEES.
When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.
